

We are more than a meal, We're a lifeline!

Meals on Wheels is more than a meal; it's a lifeline. We provide peace of mind with our daily checks on your loved one(s). When they don't answer the door, we alert you by phone to provide help that may be needed. As we continue to see an increase need of our services, please consider a gift to ensure that no Beloit homebound senior goes hungry this holiday season.

— Aging threats: Hunger, Isolation and Loss of Independence

— Clients who say daily check-ins make them feel more secure

— Increase in the number of clients receiving meals over the last year

— Clients who say receiving meals enables them to live independently in their own home

— Money saved on marketing materials by having local community members design our publications
